About

Systems Engineer specializing in building scalable and reliable platforms serving over 1M+ active users. Experienced in optimizing applications built with Laravel, React, and Vue.js to maintain high availability, reduce operational risks, and support high-traffic production environments.

Technical Skills

- **Core Engineering (Backend)**: PHP (Laravel, CodeIgniter), RESTful APIs, Microservices Architecture, Monolithic Systems.
- **Frontend & Design:** Vue.js, React.js, TypeScript, Tailwind CSS, Boostrap, Figma
- **Database & Tools:** SQL, Git, Atlassian Suite (Jira/Confluence), Cursor AI **Methodologies:** Agile (Scrum),
- Waterfall/Hybrid

Experience

Rarejob | Systems Engineer | Feb 2025 – Oct 2025

- **Part of the Website Support Team,** ensuring system stability and supporting internal/external applications.
- **Design-to-Code Synergy:** Translated high-fidelity Figma designs into scalable Vue.js components, reducing friction between UI/UX and engineering teams. **Infrastructure Reliability:** Maintained 99.97%
- system uptime for 1M+ users by delivering production-grade, zero-critical-bug releases. **Accelerated MVP time-to-market:** Integrated AI-assisted development tools (Cursor, Gemini), reducing delivery from 5 months to 4 months while maintaining production-grade quality.
- **Performance Optimization:** Integrated backend logic with modern frontend workflows to ensure seamless performance across high-traffic modules.

National Center for Mental Health | Full Stack Developer | Sept 2023 – Dec 2024

- Developed and maintain the website's front-end using Blade, React, and TypeScript to create a smooth user experience.
- **MMS Information System:** Maintained the web application, resolved bugs, and deployed feature updates while ensuring **99.9% uptime**.
- **Medicine Inventory & POS System:** Built an admin panel for nurses, doctors, and staff to manage medicine inventory and print receipts, maintaining 99% uptime for 2,000+ users.
- Implemented a **microservices architecture** to connect and streamline communication between the MMS Information System and the Medicine Inventory & POS System.

Selected Projects

- **RareJob Philippines Inc | rarejob.com.ph, tutor.rarejob.com: Maintained the company website by fixing bugs and ensuring smooth functionality.**
- Other projects are not publicly accessible due to **company privacy policies**.

Education

Laguna State Polytechnic University | B.S. Information Technology | 2019 – 2023

- Best in On-the-job Training *Monmouthshire, United Kingdom, NP25 5JA* ***Backend Developer***
